PROFESSIONAL SUMMARY

Associate Software Engineer with 1.5+ years of experience in enterprise application development at Speshway Solutions. Participates in Java and Spring Boot backend and REST API development with MySQL, and supports API integration with web clients. Full-stack project experience includes Node.js, Express.js, MongoDB, React.js, Next.js, and Flutter. Collaborates in Agile teams using Git, GitHub, and Maven.

TECHNICAL SKILLS

Programming Languages: Java (OOP, Collections, Exception Handling), JavaScript (ES6+), Dart

Backend Technologies: Spring Boot, REST APIs, JDBC, Servlets, Node.js, Express.js, JSON

Frontend Technologies: React.js, Next.js, HTML5, CSS3, Responsive Web Design, Flutter

Databases: MySQL, MongoDB

Authentication and Security: JWT, Role-Based Access Control (used in team projects)

Architecture: MVC Architecture, Multi-Tenant SaaS Applications

Tools and Deployment: Git, GitHub, Maven, Postman, Apache Tomcat, Eclipse, STS, VS Code

Development Methodologies: Agile, Scrum

PROFESSIONAL EXPERIENCE

Associate Software Engineer **April 2025 – Present**

Speshway Solutions Pvt. Ltd.

- Participated in Java and Spring Boot REST API development for enterprise web applications as part of the backend team.
- Contributed to the development of the Multi-Tenant SaaS CRM Platform and Smart Office Management System as part of collaborative development teams.
- Supported REST API integration between backend services and frontend interfaces.
- Performed MySQL database operations for application features and assisted with backend debugging.
- Used Git, GitHub, and Maven for version control and builds in an Agile team environment.

PROJECTS

Multi-Tenant SaaS CRM Platform *Company project, Speshway Solutions*

Technologies: *Java, Spring Boot, REST APIs, MySQL, HTML, CSS, JavaScript*

- Multi-tenant SaaS CRM for managing leads, customers, sales pipeline, activity tracking, and reporting, developed by a team.
- Features include role-based access and tenant-specific configurations, allowing one application to serve multiple client organizations.
- Participated as a team member in Spring Boot REST API development with MySQL for the web frontend.

Smart Office Management System *Company project, Speshway Solutions*

Technologies: *Java, Servlets, JDBC, MySQL, HTML5, CSS3, Apache Tomcat*

- Servlets and JDBC web application for employee attendance, leave management, task assignment, meetings, and notifications, developed by a team.
- Includes role-based dashboards and a responsive web UI, deployed on Apache Tomcat with MySQL storage.

Spy Salon – Salon Booking Platform

Technologies: *Node.js, Express.js, MongoDB Atlas, REST APIs, Next.js, Flutter, Dart, JWT, Socket.IO*

- Salon booking platform with a Flutter mobile app and a Next.js web app, served by a Node.js and Express.js REST API backed by MongoDB Atlas.
- Platform features include appointment booking and scheduling, booking management, JWT authentication, and Socket.IO real-time updates.
- Worked as a team member on the Node.js and Express.js backend.

Library Management System

Technologies: *Java, Spring Boot, REST APIs, MySQL, HTML, CSS, JavaScript*

- Library application covering book catalog, member registration, issue and return workflow, and fine calculation.
- Exposes catalog search and record management through Spring Boot REST APIs with MySQL storage.

EDUCATION

B.Tech, Electrical and Electronics Engineering **2020 – 2024**

Sreenivasa Institute of Technology and Management Studies (JNTU-A) **CGPA: 7.66**
